SUMMARY

I am a Full Stack Developer with 3–4 years of experience in building scalable and user-friendly web applications. Currently pursuing a Master of Computer Applications (MCA) from Indira Gandhi National Open University (IGNOU), I enjoy turning complex problems into simple, efficient, and intuitive solutions. Passionate about modern web technologies, I continuously strive to learn and build impactful digital experiences. When I'm not coding, you'll find me watching anime, playing football, or reading books.

PROJECTS

B2B Flight & Hotel Booking CRM | Angular 19, REST APIs

Developed a comprehensive B2B travel CRM with role-based access for Super Admin and Admin. Implemented flight and hotel booking management, supplier integration, customer management, reports, and a responsive Angular 19 dashboard with modern UI/UX.

Travel Booking Website | Next.js, MongoDB

Developed a full-stack travel website with a secure admin panel for managing tour packages, destinations, pricing, itineraries, and bookings. Built using Next.js and MongoDB, featuring responsive UI, dynamic package management, authentication, and a seamless user experience.

B2B Travel Booking Portal | Angular 19

Designed and developed a responsive B2B booking portal for travel agents, featuring flight and hotel search, booking workflows, itinerary management, authentication, and an optimized user experience.

Rail Ticket Booking CRM | Full Stack Development (PHP, MySQL), REST APIs

Built a railway ticket booking CRM with third-party API integration, booking lifecycle management, PNR and ticket status tracking, role-based access (Super Admin & Admin), customer management, and reporting features.

Bhagwandham | PHP, MySQL

Developed a dynamic website focused on Yoga and Sanatana Dharma, enabling administrators to manage and update content through an admin panel.

Live: <https://bhagwandham.com/>

Physiocad | PHP, MySQL

Built a dynamic healthcare platform for a physiotherapy clinic featuring an admin dashboard, doctor management, appointment workflows, and payment gateway integration.

Live: <https://physiocad.com/>

Conference Expense Planner | React.js, Redux

Developed a budget planning application for conferences and events with venue selection, meal planning, add-on management, and real-time cost estimation to simplify event budgeting.

Live: <https://conference-expense-plannerxt09.netlify.app/>

Portfolio Building Website (*Academic Project*) | HTML5, CSS3, JavaScript, Node.js, Express.js, MySQL

Designed and developed a full-stack portfolio management platform with user authentication, profile management, resume uploads, portfolio creation, and networking features for professionals.

Personal Portfolio

Showcases my web development projects and technical skills through a responsive portfolio website featuring dynamic projects and modern web technologies.
